Attention!

Before using this product, read the RF Energy Exposure and Product Safety Guide that ships with the radio which contains instructions for safe usage and RF energy awareness and control for compliance with applicable standards and regulation.

Acoustic Safety

Exposure to loud noises from any source for extended periods of time may temporarily or permanently affect your hearing. The louder the radio volume, the less time is required before your hearing can be affected. Hearing damage from loud noise is sometimes undetectable at first and can have a cumulative effect. To protect your hearing:

- Use the lowest volume necessary to do your job.
- Turn up the volume only if you are in noisy surroundings.
- Turn down the volume before attaching headset or earpiece.
- Limit the amount of time you use headsets or earpieces at high volume.

Note: When the earpiece is connected to the radio side connector, the radio's speaker is muted, and the audio is only heard from the earpiece speaker.

6. Turn the radio off before removing the earpiece from radio side connector.

Cable Management

Recommended

Not Recommended

To ensure optimum range and user experience, it is recommended to avoid crossing accessory cable with the radio antenna.

- When using the radio without a headset or earpiece, do not place the radio speaker directly against your ear.

- If you experience hearing discomfort, ringing in your ears, or speech that is muffled, you should stop listening to your radio through your headset or earpiece, and have your hearing checked by your doctor.

To change the volume level, refer to Radio Product Safety Leaflet or Customer Programming Software for Surveillance Kit Configurations.

Operation

Caution

Turn off the radio while attaching and detaching the earpiece.

Recommended Practice

- Do not fill the earpiece with water.
- Clean the earpiece with soft damp cloth.
- Do not use the earpiece until completely dry.

Warranty

Motorola Solutions offers warranty for your accessory. Refer to your Motorola Solutions dealer or point-of-purchase for detailed information.

Note: Warranty is void after customer replacement of any parts other than replacement parts listed.
