MN004560A01-AA

Important: APX6000/APX6000XE/APX7000/APX7000XE/
SRX2200 users should schedule firmware update prior
to using the new UL PMNN4547 battery as older
firmware versions do not recognize the new UL battery.
Failure to upgrade radios to R16.30.00 leads to
persistent low battery alert regardless of battery
capacity.

Required Software: APX Firmware Release R16.30.00 or later;
hardware upgrade is not required.

Refer to bulletin MTN-0001-17-NA for additional details or contact
your Motorola Solutions technical support center at
