#### Note:

\* Operational Status Messaging(OSM) require pre-configuration in the WAVE Application.
\* Answer/reject/end call and microphone mute functionalities is not applicable for the radios.

### Accessory Manager App Introduction

Download and Install Accessory Manager application from Google Play Store for future software upgrades and new feature releases.

https://play.google.com/store/apps/ details?id=com.motorolasolutions.ama

# \*More programmable functions may be added on the WAVE application in the future. Please refer to Kodiak User Guide for detail.

## Pairing the RSM to a MOTOTRBO ION Radio

- While RSM is power off, press and hold the Power button until you hear "Power On" followed by "RSM Battery Level" and lastly "Searching for Host", and the blue LED blinks.
- From the MOTOTRBO ION, search and select "WM500\_xxxx" from the Bluetooth list. (xxxx denotes the alphanumeric MAC address of your WM500 RSM)
- From the MOTOTRBO ION, tap "Pair" when prompted to initiate Bluetooth Classic connection.
- 4. Once the devices are paired successfully, a tone is played.
- 5. A voice prompt from the RSM indicates that the device is "Connected".
- Wait for MOTOTRBO ION to prompt another request for Bluetooth Low Energy (BLE) to be paired with RSM.
- Tap "Pair" when prompted and a tone will be played from RSM once successful.
- 8. Now both devices are ready to be used.

### **RSM Overview**

**Note:** MOTOTRBO ION is unable to support RSM through NFC.

Note: Always unpair the RSM from the Bluetooth host and ensure that the paired device is "Cleared" before starting another pairing process.

Table 1: KSM Overview and Description
